

I purchased xm radio after they took Howard Stern off the air in my area because of all the pressure from the FCC. The traffic station has saved from getting stuck in hours of traffic jam due to lane closures, I love my America Left station and the variety of music I can listen to without it be censored or pre-programed by Clear Channel. What are our soldiers fighting for in Iraq? Our freedom or to give the U.S. Government power to take it away from us. I feel like our rights in this country to make choices is slipping. I pay for the right to listen to what I want on XM Radio and watch what I want on cable television and if this is taken away from me it would seem very un-American.
